CLAIMS

Effective claims management is critical to the overall success of any insurance program. Our claims specialists have decades of experience in managing Public Entity claims. We understand the immunity laws, special defenses and tort environments in all of our territories. We ensure that defense counsel and claims administrators are experts in Public Entity claims. Our goal is to provide outstanding service while achieving the best possible claims outcomes for all parties.

RISK CONTROL

Our Risk Control specialists are highly experienced in working with Public Entities. Whether helping to implement or manage safety programs, consulting with safety committees or providing seminars and training, our Risk Control Services are focused on providing the best overall service in the industry.
